THANKS

It is impossible to adequately thank all the people who helped make *A Health Handbook for Women with Disabilities* a reality. It started 10 years ago as a good idea shared by 2 women, and grew into a remarkable international collaboration between women with disabilities and their friends in more than 40 countries.

Listing a person’s name does not begin to say how much her efforts and ideas helped create this book. Every staff member, intern, and volunteer here at Hesperian also helped bring this book into the world, including those who raise funds, manage finances, publicize our materials, and pack and ship them around the world.

Along with our tireless medical editors, we called on a few reviewers over and over again, and they deserve a special mention and our sincerest thanks: Naomy Ruth Esiaba, Kathy Martinez, Gail McSweeney, Janet Price, Judith Rogers, Andrea Shettle, Ekaete Judith Umoh, and Veda Zachariah.

Many thanks to the following groups of people with disabilities who contributed so much of their hearts, time, and personal experience to help us make sure the material in this book would be useful to women with disabilities all over the world:

Family planning for women with disabilities (and their partners — whether able-bodied or disabled) must be made available. As is the case with the inclusion of persons with disabilities for all Millennium Development Goals, general reproductive health disabilities. Finally, women with disabilities face additional concerns that must be anticipated in Millennium Development Goal programming: (a) Contrary to the goals and principles of all the human rights conventions, women with disabilities and girls as young as 7 and 8 are often sterilized against their knowledge or will; (b) In some communities, women (and men) with disabilities who have children face the prospect of having their children taken from them because the parents have a disability.
She worked as the Women's Health Editor at Hesperian Health Guides, and has supervised or contributed to several of its books, including *Where There Is No Doctor*, *Where Women Have No Doctor*, *A Health Handbook for Women with Disabilities*, and
